

APWA Virtual Training Seminar

SAP Training - New or Renewed Certifications

Presentation By:
Andrew Stuffer

This Safety Assessment Program (SAP) training is approved by Cal OES and allows licensed engineers to obtain a safety assessment program identification card from Cal OES.

Card holders are authorized to conduct official post-disaster safety assessments that are mission critical during a community's recovery from a disaster.

Completion of this training will give attendees a thorough understanding of the post-disaster Safety Assessment processes and dynamics.

Wednesday, November 17th
8-11:30am
Thursday, November 18th
8-11:30am

\$80 for members
\$90 for non-members
